                    UI interface design

Professional Experience

Data2Value – Stockholm, (Oct 2022 - March 2023)
FRONTEND DEVELOPER INTERN

In my most recent role at Data2value, I achieved a great feat of helping the medical team fully simplify medical processes, which improved how medical personnels and patients translate medical processes in turn boost their overall productivity and transparency.

HYPER ISLAND – Stockholm, Hammarby Sjöstad
FRONTEND DEVELOPER STUDENT

I'm a student at Hyper Island with an ambition to blend creative expertise with technical skill. I'm deeply focused on learning Javascript and React and leveraging my creative background to develop beautiful & dynamic projects.

- Phaser 3 Le Sauteurs
  - Created an RPG top-down style game using Phaser 3 & Matter physics engine. The game makes use of ES6, custom classes and various JS techniques.

- Time & Space Music Player
  - Created a music player that tracks the position of the International Space Station (ISS) and changes track every time the ISS passes over a new country or ocean.

Dabufem – Lagos, Nigeria
LOGISTIC / IT SUPPORT MANAGER (Jan2020 - Apr 2021)

Involved in the Automation of logistics / warehousing programs and serve as an internal consultant to management for the development, negotiation and execution of major contracts with 3rd party / 4th Party outsourcing arrangements due to high demand of PMS, AGO, DPK, transportation nationwide using performance based SOW/contracts and managing contractors, helping them implement the use of automated check In's for positive effects of processing a high volume of orders in a reduced amount of time.

Projektlots Göran Alvebro AB–Täby, Sweden
TECH SUPPORT (2022 -Part-time)*Technical support to help maintain, manage,diagnose and debugging software or hardware faults that may arise and detect before they arise*

Qampos Design Project -Stockholm, Sweden

NORDISKE MEDIER AB (2022 Hyper Island Project)

My team and I created a model that Makes their customer journey more smooth and accessible Generating 1,134,855 Page views per week, 557,877 Newsletter per week, and also aided in making 450.105 Reader print by using a dynamic design approach.
